

PELLETIZE YOUR CARBON BLACK POWDER

PERFORMANCE. RELIABILITY. EXPERIENCE. EASE OF USE.

Mars Mineral's Pin Mixer rCB equipment is the global standard for pelletizing recovered carbon black (rCB) or virgin carbon black (vCB), making it easier to handle, package and transport.

These pellets are ideal in many applications:

- Green Tires
- Pipe Coatings
- Strength Additives
- Thermal Insulation
- Tinting Agents
- UV Protectants

Our proven pin mixer technology transforms ELT rCB powder into consistent pellets that are easier to handle, package, transport, and market.
